- eChat is a full stack web application with two functionalities **chatting and file management** (managing files shared during conversations).
- The application is built on Iterative development model – started with a simple chat application – extending it with the file sharing – and finally incorporating file management.
- At each iteration, **database models, workflows, and UI designs** were created and updated. **Figma** was used for UI design before implementation.
- Developed by a **team of three**, where I primarily handled **backend development**, including **database modeling, workflow design, UI design selection, and backend & database implementation**

Achievements

- Leetcode: Solved 300+ DSA questions of different types (Arrays, Stack and Queue, LinkedList, Trees, Graphs)
- GFG: Solved 300+ DSA questions of different types (Arrays, Stack and Queue, LinkedList, Trees, Graphs)
- Hackerrank: Achieved 5-star rating in Java and C++ in Hackerrank
- NIMCET: AIR 535 out of 25000 participants all over India in the National Level Entrance Exam for MCA

Extracurricular

- Participated in college-level cricket, demonstrating teamwork, leadership, and strategic thinking skills.
- Played volleyball recreationally, enhancing coordination, communication, and team collaboration abilities.
- Engaged in badminton, improving focus, agility, and strategic decision-making skills.

Experience

• Web Developer

Messy Programmer, West Bengal, India

Jan 2024 – Mar 2024

Tech Stack: React.js

- Worked as a Frontend Web Developer at Messy Programmers, designing intuitive user interfaces.
- Developed responsive web applications, focusing on user experience and modern UI design.

• Web Designer

Mediquee

Dec 2020 – Dec 2021

- 1 year of experience as a Designer and Web Designer at Mediquee.
- Designed logos, web pages, and icons to enhance brand identity.
- Created responsive designs using Figma, Illustrator, and Photoshop.
- Developed wireframes and prototypes for user-friendly interfaces.
- Collaborated with teams to deliver cohesive digital products.
